

### **Features & Benefits:**

- 1" (25.4 mm) diameter tubes
- 316/316L stainlesssteel construction
- Custom made to any length
- Xtreme Rare-earth circuits for up to 150°F, 250°F or 400°F
- Alnico circuits are available for temperatures up to 1200°F
- New and improved ceramic circuits have twice the holding force of our traditional magnets

### **ERIEZ**®

# Magnetic Tubes

### **Permanent Tube Magnets**

Powerful permanent magnetic tube magnets are designed to remove ferrous contamination from dry and liquid products

## Magnetic Tubes

Eriez' Xtreme Rare Earth Magnetic Tubes utilize the industry's strongest magnet circuit available to recover more fine-iron contamination and reduce product washoff. They can be used as inspection tools or in areas where conventional Grate Magnets will not fit. Contact Eriez Magnetics to discuss your application. We will help select the design that best fits your application.

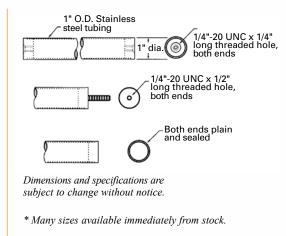

### **Recommended Magnet Type:**

For removal of tramp metal:

Ceramic tube magnets

For capturing fine ferrous or weakly magnetic material:

• Xtreme Rare Earth tube magnets

### **Specifications:**

Tube magnets can be manufactured with the following ends:

- Stainless-steel end plugs with 1/4"-20 drilled and tapped ends
- Stainless-steel 1/4"-20 threaded studs, 1/2" long
- Stainless-steel plain end plugs
- Stainless-steel plain end plugs with heliarc welds
- · Stainless-steel sanitary end plugs
- · Other ends available upon request
